# Rotary Benefactor  
+ Sustaining Member

Kim Jackson

Kim Jackson serves as the Executive Director of The Birthday Joy Program, a nonprofit dedicated to bringing hope, joy, and a sense of self-worth to children living in crisis through the celebration of birthdays. A longtime volunteer with the organization, Kim spent six years serving in various roles, including two terms on the Board of Directors, before stepping into the Executive Director position in 2023.

In addition to her leadership with the organization, Kim is a full-time school counselor and passionate advocate for children and mental health. She is deeply committed to ensuring every child feels seen, valued, and celebrated—especially during life's most meaningful moments. Her dedication to service and community impact was recognized with the 2022 Athena Leadership Award from the League City Chamber of Commerce.

## April is Rotary's Environment Month

April is Rotary's Environment Month. Every April, Rotary clubs around the world turn their attention to the environment. Not because a single month is enough, but because shared focus creates momentum.

While there may be conflicting views on the causes and effects of global warming, we can all agree that we have an obligation to be good stewards of our planet's resources.

The first Earth Day was held on 22 April, 1970, launching a wave of action to protect our environment, including the passage of landmark environmental laws in the United States. Other countries soon followed suit. Every year since, the day has been set aside to focus on mobilizing for action to protect our planet.

The Environmental Sustainability Rotary Action Group (ESRAG) assists Rotary clubs, districts, and multi-districts in building awareness, inspiring action, and planning service projects that focus on environmental sustainability, awareness of climate change, and actions to reduce greenhouse gas emissions.

### Polio Plus Update

**Second National Campaign in Pakistan:** Pakistan announced a second nationwide vaccination campaign in 2026, scheduled to run from April 13 to April 19, targeting over 45 million children.

**Campaign Focus:** Campaigns are focusing on high-risk areas in Afghanistan and Pakistan, particularly the southern region of Afghanistan and Karachi/South KP in Pakistan.

**Vaccine Tool:** The novel oral polio vaccine type 2 (nOPV2) continues to be the primary tool against circulating vaccine-derived poliovirus type 2 (cVDPV2) outbreaks, with over 2 billion doses administered globally by early 2026.
