6. The Corpus Christi Texas Rotary Club successfully completed a prototype rain garden project at a South Texas elementary school. p.44
TRUE OR FALSE

Brought to you by PDG Charda Bronaugh

Answers can be found on Rotary.org
and page 6

January Is Vocational Service Month

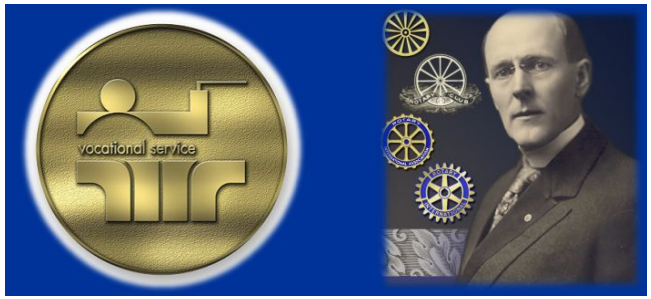

Rotary International designates January as Vocational Service Month to recognize the importance of using professional skills for the betterment of society.

Vocational Service is one of Rotary's "Five Avenues of Service" and is based on the idea that every Rotarian's occupation is an opportunity to serve their community while upholding the highest ethical standards.

Key Objectives of Vocational Service :
The month focuses on the "Second Object of Rotary," which encourages: High Ethical Standards: Promoting integrity and honesty in all business and professional dealings.

Recognition of All Occupations: Acknowledging the worthiness and dignity of every useful occupation as an opportunity to serve.

Skill Utilization: Applying your unique vocational expertise to address community problems and needs.

Your Rotary Mag Quiz Answers

Answers To Quiz

1. False - it will take place in Orlando, Florida.
2. True - Myrotary.org/rotary-direct
3. True - regular testing is the only way to detect the presence of arsenic.
4. True - RAGs are organized by Rotarians, Rotaractors, and Rotary Peace Fellows.
5. True - "awareness precedes acceptance".
6. False - "Rain Gardens" are a relatively low-cost means to treat storm water at it's source. The Corpus Christi Rotary Club partnered with the Rotary Club of Los Altos Quetzaltenango, Guatemala, in a Rotary Global Grant. Together, with supporting funding from clubs and districts across Texas and funding from other North American districts, along with personal international hands-on "sweat equity" by rotarians and friends, a rain garden was established at Sarita Elementary School in Guatemala.

Polio Updates

13 January 2026: In 2025, WHO's polio programme in the Eastern Mediterranean Region advanced critical areas of eradication despite conflict, humanitarian crisis and funding pressures. From refining strategies in endemic countries to expanding laboratory capacity and political engagement and accelerating integration with routine immunization, the year marked important progress across multiple fronts.
